When Private Oliver Theophilus returned to Marfa Air Base, Texas, this week, he was accompanied by his wife, the former Margaret Crerar, and their three months old daughter, Peggy Anne. Mrs. Theophilus has been living with her parents, Mr. and Mrs. George Crerar, 14111 Woodworth rd. Last Sunday evening open house was held at the Crerar home in honor of the young couple and about 50 friends and relatives called during the evening. Private Theophilus' mother, Mrs. M. Theophilus and his sister, Sarah of New Castle, Pa. were here for the week-end to be present for the baptism of Peggy Anne in Calvary Presbyterian Church. ← on February 7, 1943

With love from Grandma Corran

Just saying "Happy Birthday"  
and wishing "Many More"  
for "a dear, little dimpled Darling"  
Who's never had one before!

When Peggy-Anne was one year old I was in Texas for her birthday, and in all of Alpine I couldn't find a birthday card that looked sweet enough for my dear grand-child. So when I got home to Cleveland, I searched and found this one that I thought was almost sweet enough for her.

*To you who answered the call of your country and served in its Armed Forces to bring about the total defeat of the enemy, I extend the heartfelt thanks of a grateful Nation. As one of the Nation's finest, you undertook the most severe task one can be called upon to perform. Because you demonstrated the fortitude, resourcefulness and calm judgment necessary to carry out that task, we now look to you for leadership and example in further exalting our country in peace.*

## Accuratio Machine Perfected And Soon To Be Marketed

Theophilus Completed First  
Model Year Ago; For  
Several Purposes

It was just one year ago about this time that Oliver Theophilus completed his first Accuratio machine, which is used in determining grade point ratios. Today Theophilus has perfected his machine and the completed models will be ready for sale by the first of December. His completed model, which is made entirely of metal construction, arrived yesterday. Al-

OLIVER THEOPHILUS

though the machine which Theophilus has ready for the market now is only workable in colleges and universities, a machine which can be used in banks and steel corporations is also being worked on now by Mr. Theophilus.

The Novelty Advertising Company of Coshocton is constructing the Accuratio machine. It will sell for \$20.00 in single lots, but whenever two or more are ordered the price will be \$17.50 a piece. Theophilus is offering a commission on all sales. Get in touch with him, if you think you have a buyer.
